

"Clean Energy & Circular Economy: Why Doing Right Things Doesn't Always Work and How to Fix It?"

Xerrada a càrrec del Prof. Krish Sankaran
Radical Innovations Group, Finland

The talk will be centred about who we are and what we do and tie about the concept of clean energy and circular economy challenges and opportunities: Making Green from Black: Circular Economy of Carbon Emissions to Sustainable Fuels.

"In the end, the term 'circularity' may just be one way to make us aware that we need a more encompassing, integrated and restorative sustainability path that includes people as much as technology and nature."

Michiel Schwarz
